Sandeep Bisht

Address: Hno-73/2, Lane No -2, Post office road

Clement town, Dehradun, (U.K.) India

Email Address: sandeepbisht29@gmail.com

Contact No.: +91 9639156497

Objective:

I am seeking a challenging position as a Software Developer in an organization that prioritizes the development of dynamic and robust web applications. My goal is to leverage my skills and experience to drive the growth of the organization, delivering value, innovation, and profitability. I am passionate about continuously improving my knowledge and skills, and am committed to working collaboratively with cross-functional teams to deliver high-quality software solutions that exceed user expectations.

Work Experience:

Feb 2022 to till date: "GIKS Innovating Technology" as a "Software Developer"

PROFESSIONAL EXPERIENCE

- I am working as a React.js developer for the past two years, my main objective was to build robust web applications for GIKS India. In addition to React.js, I have experience working with Node.js, and I use both technologies to develop the backend and frontend web applications.
- In my journey, I have completed five plus projects, one of the key projects I worked on was a custom e-commerce platform for a client. I was responsible for developing several frontend components, including the shopping cart, checkout flow, and product pages. I also worked with headless API's.
- I have experience working with Node.js and creating APIs for several projects. In these projects, I used Node.js to build robust, scalable APIs that provided data and functionality to various client applications. I utilized Node.js frameworks Express.js to handle HTTP requests and responses, and implemented features such as authentication, validation, and error handling. Additionally, I worked with MongoDB mostly to persist and retrieve data for the APIs.
- I've also focused on developing my collaboration and communication skills. I've worked closely with other developers, as well as designers, project managers and clients. I've found that open communication and a willingness to help others are key to building effective teams. earlier experience

Earlier-Experience:

July 2021 to December 2021 at Axis Software Solution.

- Learn and develop user-friendly web applications using React.js and its core principles.
- Collaborating with cross-functional teams (including designers, developers, and project managers) to define, design, and ship new features.
- Participated in pre-project analysis and technical assessments to validate the creation of a user-friendly interface.
- Participating in code reviews, testing, and debugging processes to ensure code quality and application stability.

Academic Qualification:

- **Master of Computer Applications** from **Graphic Era Hill University** in the year 2018.
(Specialized in React JS, JavaScript, HTML5, CSS, Bootstrap, Node)
- **Bachelor of Science** from **DAV PG-HNBGU** in the year 2014.
(Physics, Chemistry & Math's)
- **Sr. Secondary School** from **Raja Ram Mohanroy Academy** in the year 2011.
- **High School** from **Raja Ram Mohanroy Academy** in the year 2009.

Co-Curricular Activities:

- Participated in various events and activities held in Office.
- Participated in sports activity in Office, School and College.
- Participated in various Plays in School and College.

Skills:

- React JS
- JavaScript
- Node JS
- HTML5
- CSS
- Bootstrap

Personal Details:

DOB : 10th of Oct, 1992
Father's Name : Late Bharat Singh Bisht

Status : Single
Nationality : Indian
Languages : English & Hindi

Declaration:

I hereby declare that all the details mentioned above are in accordance with the truth and fact as per my knowledge and I hold the responsibility for the correctness of the above-mentioned particular.
